FULL STACK DEVELOPER | SYSTEMS ENGINEER

Main Stack: React, Laravel, FastAPI, PostgreSQL, Docker, Power BI

PROFESSIONAL SUMMARY

Full Stack Developer and Systems Engineer with solid experience building web applications, REST APIs, and automation solutions. Skilled in React, Vue.js, FastAPI, Django REST Framework, Laravel, and relational databases.

Experienced in data analysis, automated reporting, and Power BI dashboard development, focused on process optimization and data-driven decision making. Strong knowledge of agile methodologies, clean architecture, and software development best practices.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, PHP, C#

Frontend: React, Vue.js, Angular, Tailwind CSS

Backend: FastAPI, Django REST Framework, Laravel

Databases: PostgreSQL, MySQL, SQL Server

DevOps & Tools: Docker, Git, GitHub, AWS S3, Postman

Architecture & Methodologies: Microservices, Clean Architecture, OOP, Agile/Scrum

Security: JWT, OAuth2, Role-Based Authentication

BI & Automation: Power BI, report automation, data analysis

Operating Systems: Windows, Linux

PROFESSIONAL EXPERIENCE

Software Developer

InnovaMc | Colombia | Jan 2019 – Present

- Developed web applications, SPAs, and administrative dashboards.
- Built REST APIs with Django REST and Laravel.
- Developed frontend applications using React, Vue, and TypeScript.
- Designed and modeled relational databases.

Achievements:

- Delivered more than 8 production-ready projects.
- Increased client conversion rates by 20%–30%.

Information System Administrator – “Cuéntame”

ICBF – Casanare Regional | Colombia | Oct 2025 – Jul 2026

- Automated reports and data processing workflows.
- Built Power BI dashboards for monitoring and analysis.
- Optimized data validation and quality assurance processes.
- Managed 50–100 monthly requests and technical support cases.
- Participated in data analysis and system process improvement initiatives.

Technical Focus: automation, data analysis, business logic, and information optimization.

IT Support & Information Systems Management

ESAP – Escuela Superior de Administración Pública | Colombia | May 2025 – Dec 2025

- Managed requests and incidents through the Aranda ticketing system, ensuring traceability and SLA compliance.
- Diagnosed and resolved technical issues related to IT equipment and services.
- Monitored and validated technological infrastructure in academic environments.
- Documented processes, incidents, and solutions for continuous service improvement.
- Supported technology resource optimization and end-user support.

Software Developer

Magma Ventures S.A.S | Colombia | May 2025 – Nov 2025

- Developed and maintained a Full Stack platform using Laravel, React, and FastAPI.
- Implemented frontend and backend functionalities based on project requirements.
- Built and integrated REST APIs for internal services.
- Worked on database optimization and query improvements.
- Performed bug fixing, maintenance, and performance improvements.
- Collaborated in agile environments, supporting testing and deployment processes.

HIGHLIGHTED PROJECTS

- Developed Full Stack web applications using React, Laravel, and PostgreSQL.
- Built REST APIs with FastAPI and Django REST Framework.
- Created dashboards and automated reporting workflows with Power BI and Python.
- Developed SPA administrative systems focused on process optimization.
- Optimized relational databases and backend query performance.
- Delivered production-ready business management and automation solutions.
